Education Bureau
Territory-wide System Assessment 2019
Secondary 3 Mathematics
Provisional Marking Scheme

Note (for Section B and C of each sub-paper):

*Mark for Answer:

(1) The Mark for Answer may be given when there is a correct answer without any work shown.
(2) If the work shown is incorrect, the Mark for Answer will not be given.
(3) If the work shown is poorly presented but there is a correct answer, the Mark for Answer may be given.

**Mark for Presentation:

(1) If the work shown is correct but the answer is incorrect, the Mark for Presentation may be given.
(2) If the work shown is incorrect, the Mark for Presentation will not be given.
(3) If the numerical value of the answer is correct but not the approximate value as required by the question, the Mark for Presentation will not be given.
(4) The Mark for Presentation may include overall work such as mathematical expressions, units, written explanations, use of symbols, etc.

r.t. *xxx* means "accept answers which can be rounded to *xxx*".

Steps that may be skipped are shown in shade.

Alternative suggested answers are shown in boxes.

Section B – Sub-paper 1 (9ME1)

Question Number	Suggested Answers	Marks	Notes
21.	$A = -5$ $B = 0$ $C = 3/+3$	1	Must be all correct
22.	Diameter = 7×10^{-6} m	1	
23.	Kate's expenditure on food is \$ 1 950 in that month.	1	
24. (9ME2-24)	$m =$ 5	1	
25. (9ME2-25)	The value of the 4th term of the sequence is 15 .	1	
26.	$3y$	1	
27.	$(y + 6)(y - 6)$	1	
28. (9ME4-26)	$x =$ 5	1	
29. (9ME2-29)	approximate solution	1	
30.	$x > 1$	1	
31.	The radius of the circle is 12 cm.	1	
32.	The order of rotational symmetry is 4 .	1	
33.	(a) $x =$ 38 (b) $y =$ 8	1	Must be all correct No need to consider unit
34.	$m =$ 85°	1	No need to consider unit
35. (9ME2-35)	P, R	1	Must be all correct
36.	The coordinates of point C' are (1 , 4).	1	Must be all correct
37.	(i) Discrete data (ii) Continuous data	1	Must be all correct
38. (9ME2-38)	(a) At 10:00 , the upload speed was equal to 5.2 Mbps. (b) At 15:00 , the upload speed decreased most compared to the upload speed of one hour before. (c) The difference of the upload speeds recorded at 12:00 and 13:00 was 1.2 Mbps.	1 (38a) 1 (38b) 1 (38c)	No need to consider unit
39. (9ME4-39)	Mean = 180 Median = 72	1 (39-1) 1 (39-2)	

© HKEAA 2019

Section C – Sub-paper 1 (9ME1)

Question Number	Suggested Answers	Marks	Notes
40. (9ME3-40)	Let r % be the annual interest rate. $4\,000 \times r\% \times 2 = 240$ $r = 3$ $\therefore$ The annual interest rate is 3 % .	 1 (40-1) 1* (40-2) 1** (40-3)	
41.	The yearly consumption of plastic bags this year $= 8\,500 \times (1 - 20\%)^2$ $= 5\,440$ $\therefore$ The yearly consumption of plastic bags this year is 5 440. OR $8\,500 \times 0.8 = 6\,800$ $6\,800 \times 0.8 = 5\,440$ The yearly consumption of plastic bags this year is 5 440.	 1 (41-1) 1* (41-2) 1** (41-3) 1 (41-1) 1* (41-2) 1** (41-3)	 Correct method (multiply 0.8 two times)
42. (9ME2-42)	$2y + 10° = y + 40°$ $y = 30°$	1 (42-1) 1* (42-2)	 No need to consider unit
43. (9ME2-43)	$\begin{cases} 2x + y = 11 & ...(1) \\ x = 2y + 3 & ...(2) \end{cases}$ Substitute (2) into (1) $2(2y+3) + y = 11$ $y = 1$ Substitute $y = 1$ into (2) $x = 2(1) + 3$ $x = 5$	 1 (43-1) 1* (43-2) 1 (43-3) 1* (43-4)	 Correct method (eliminating one of the variables) Correct value of y (or x) Correct method Both values are correct

© HKEAA 2019

Question Number	Suggested Answers	Marks	Notes
44. (9ME4-44)		1* (44-1) 1 (44-2) 1* (44-3)	Must be all correct In case the data in the above table is incorrect, students can still use the ordered pairs to draw a straight line. The line must pass through (–3, –2) and the range of x must include the values from –3 to 3. Correct graph (include: correct position, use ruler to draw the line, pass through the 3 correct points and extend two ends of the line) If the table is incomplete but no mistakes are found and the graph is correct, (0, 1, 1) can be given.
45.	$x = 2\pi(9)\left(\frac{150°}{360°}\right)$ ≈ 23.561945 $= 23.6$ cm (corr. to 3 sig. fig.)	1 (45-1) 1* (45-2) 1** (45-3)	 r.t. 23.6 cm
46. (9ME2-46)	$AB = CB$ (given) $BD = BE$ (given) $\angle ABD = \angle CBE$ (vert. opp. $\angle$s) $\therefore \triangle ABD \cong \triangle CBE$ (SAS)		Or other correct proofs
	Conditions		
	(1) Any correct proof with correct reasons	3	
	(2) Any correct proof with poor presentation, missing reasons or inappropriate reasons	2	
	(3) Incomplete proof with any one correct statement and one corresponding reason	1	
	(4) Incomplete proof	0	

x	–3	1	3
y	–2	0	1

31.	Figure A : $\underline{\ 4\ }$ Figure B : $\underline{\ 1\ }$	1	Must be all correct
32.	(a) $\triangle ABC \sim \triangle PQR$ (b) Ratio of 2 sides, included angle	1	Must be all correct
33.	$x=$ $\underline{\ 125°\ }$	1	No need to consider unit
34.	HE / EH	1	
35.	The polar coordinates of point $\boldsymbol{P}$ are ($\underline{\ 1\ }$, $\underline{\ 210°\ }$).	1	Must be all correct and in order
36.	$\theta=$ $\underline{\ 44.1°\ }$	1	r.t. 44.1° No need to consider unit

Section C – Sub-paper 4 (9ME4)

Question Number	Suggested Answers	Marks	Notes
40.	The amount = \$50 000 × $(1 + 2\%)^3$ = \$53 060	1 (40-1) 1* (40-2) 1** (40-3)	r.t. \$53 060
41.	$AB^2 = AP^2 + PB^2$ $= 5.2^2 + 3.9^2$ $= 42.25$ $AB = 6.5$ km	1 (41-1) 1* (41-2) 1** (41-3)	
42.	The area of the trapezium $= \dfrac{[(7-4)+(8-1)]\times(6-2)}{2}$ = 20 sq. units	1 (42-1) 1* (42-2) 1** (42-3)	Or other correct methods
43. (9ME3-46)	$\angle CBE + 110° = 180°$ (adj. ∠s on st. line) $\angle CBE = 70°$ $\angle FEG = 70°$ (given) $\therefore \angle CBE = \angle FEG$ $\therefore AC \parallel DF$ (corr. ∠s equal)		Or other correct proofs
	Conditions		
	(1) Any correct proof with correct reasons	3	
	(2) Any correct proof with poor presentation, missing reasons or inappropriate reasons	2	
	(3) Incomplete proof with any one correct statement and one corresponding reason	1	
	(4) Incomplete proof	0

Question Number	Suggested Answers	Marks	Notes
44. (9ME1-44)		1* (44-1) 1 (44-2) 1* (44-3)	Must be all correct In case the data in the above table is incorrect, students can still use the ordered pairs to draw a straight line. The line must pass through (–3, –2) and the range of x must include the values from –3 to 3. Correct graph (include: correct position, use ruler to draw the line, pass through the 3 correct points and extend two ends of the line) If the table is incomplete but no mistakes are found and the graph is correct, (0, 1, 1) can be given.
45.	The total amount paid by Miss Chan $= 256 + 102 + 201$ $> 200 + 100 + 200$ $= 500$ $\therefore$ Miss Chan **can** get the discount.	0 0 No evidence of using estimation strategies nor giving reasonable justification	◆ Exact calculation only ◆ The estimate is given only after exact calculation ◆ Use wrong methods to get the approximation for the price of each of the items
		1 0 Partial evidence of using estimation strategies, but the solution is incomplete or contains errors	◆ Approximate the price of each of the items correctly, but the total amount paid by Miss Chan is omitted or wrongly estimated ◆ Estimate the total amount paid by Miss Chan correctly, but the conclusion is omitted or wrong ◆ Correct method used, but errors occurred
		1 1 Estimate with reasonable justification	◆ No need to consider unit/presentation ◆ The conclusion must be correct and aligned with a reasonable explanation

x	–3	1	3
y	–2	0	1
