Part 3

John is reading a letter to the editor in a newspaper.

Read the letter.

Dear Editor,

1

I felt very upset after reading your newspaper on 10 June – another dog was poisoned on Bowen Road recently. His owner was careless to let him run free. People should know that many dogs have been poisoned there in the past few months.

5

Any person who kills dogs in this way is like a cold-blooded murderer. It is cruel to make dogs suffer so much. It is also sad for owners to lose their pets. They must keep a closer eye on their dogs. The police must also do more to catch the people who put poison out for dogs to eat.

I'm really scared. These horrible acts must stop.

Part 4

Susan is reading a passage in the library.

Read the **first part** of the passage. Answer Questions 1 – 5.

Today, the environment is a hot topic in the media - newspapers, television and the Internet. Without a healthy environment, life on our planet will become very difficult. We need to save the environment. However, people are cutting down too many trees. Animals, like Indian Elephants, are in danger too because people have hunted them or taken away their homes.

Global warming is also a problem. This is where temperatures around the world go up. Ice melts and sea levels rise. There are places with lots of water while others have droughts. Global warming happens because we have more and more carbon dioxide and other gases in the air. These gases raise temperatures because they trap more of the sun's heat.

Choose the best answer by blackening the circle.

1. What does 'our planet' (line 3) refer to?

- ☐ A. the Internet
- ☐ B. the Earth
- ☐ C. the topic
- ☐ D. the media

2. Why are Indian Elephants in danger?

- ☐ A. People keep them as pets.
- ☐ B. People are killing them.
- ☐ C. They eat a lot.
- ☐ D. They are not strong enough.

3. What is 'global warming'?

- ☐ A. rising temperatures
- ☐ B. falling sea levels
- ☐ C. more ice
- ☐ D. less wildlife

4. Which of the following is true according to paragraph 2?

- ☐ A. Global warming is not happening.
- ☐ B. Global warming happens when there is less and less carbon dioxide.
- ☐ C. There are places which are too wet or too dry.
- ☐ D. All the places are covered with ice.

5. In line 1, what does the word 'hot' mean?

hot *adj* hotter, hottest

- 1. (of spices) producing a burning taste
'Pepper and chillies are hot.'
- 2. (of a person) feeling heat
'I feel hot.'
- 3. very common or popular
'Chinese Kung Fu is very hot in western countries.'
- 4. performing with unusually great skill
'Peter is a hot drummer.'

- ☐ A. 1
- ☐ B. 2
- ☐ C. 3
- ☐ D. 4

Read the **second part** of the passage. Answer Questions 6 – 10.

There are other problems too. Pollution from factories can
cause acid rain. Acid rain can damage buildings and bridges, so
they deteriorate faster than usual. It also pollutes many lakes,
rivers and streams and kills wildlife nearby. As a result, there
may be fewer wild animals.

To help save the environment, we should try to find cleaner
energy. Solar power (energy from the sun) and wind power are
much less polluting. We should save energy by reducing the use
of air conditioning and turning off lights when they are not in
use. Recycling is also a good way to help the environment.
Travelling by bicycle can help too and is a good way to keep fit.

Choose the best answer by blackening the circle.

6. Acid rain _____.
- ☐ A. is not a problem any more
 - ☐ B. is harmful to our environment
 - ☐ C. is only found in lakes and rivers
 - ☐ D. helps trees grow faster than usual
7. Read line 3: ... they deteriorate faster than usual. This means that the buildings and bridges may _____.
- ☐ A. fall down
 - ☐ B. become smaller
 - ☐ C. be safer than before
 - ☐ D. be cleaner than before

8. According to lines 2 – 5, wild animals are killed by _____.
- ☐ A. hunters
 - ☐ B. other wildlife
 - ☐ C. polluted water
 - ☐ D. buildings and bridges
