## **Part 1: Reading Aloud**

Read the following text aloud.

### **The South China Sea**

The South China Sea is big and deep. It lies to the south of Mainland China and Taiwan. Many ships travel across there, so it is very busy. There are many large and small islands. Some are under water when the sea is high. There are also different kinds of sea animals, but pollution and overfishing are killing them. We must do something to save the sea life.

## **Part 2: Teacher-Student Interaction**

The teacher will ask you some questions. Answer them.
