## Part 1

You have to write an article about pets at school. Your teacher has given you an information leaflet to help you.

Read the information leaflet and answer the questions.

### Information Leaflet

## **THERAPY PETS AT SCHOOL: A HONG KONG FIRST!**

SKFGLR Secondary School is the one and only school in Hong Kong that has introduced therapy pets at school! The aim is to help students who feel stressed to relax. The theory is that relaxed students will behave better and their results may also improve.

The idea of therapy animals originally came from overseas mental health professionals. They saw improvement in the behaviour of their patients when they played with a therapy animal. Elderly people in aged-care homes had a more positive outlook when they were visited daily by animals like dogs and cats. Upset patients calmed down. Special needs children had less severe behavioural problems.

### **THE THERAPY ANIMALS**

The three therapy animals, Momo the dog, Fifi the cat, and Bobo the rabbit will be on-site in the city's first ever therapy pet trial.

The trial will last for one year. The animals will be available in a special area of the school, which is suitable for relaxing and also for animals.

### **PET THERAPY SESSIONS**

Group sessions – students will be able to study with the animals running around or curled up near them.

For those who are more stressed, individual sessions are available with the school social worker and the animals. During this half hour, students will get to interact more with the animals and the social worker.

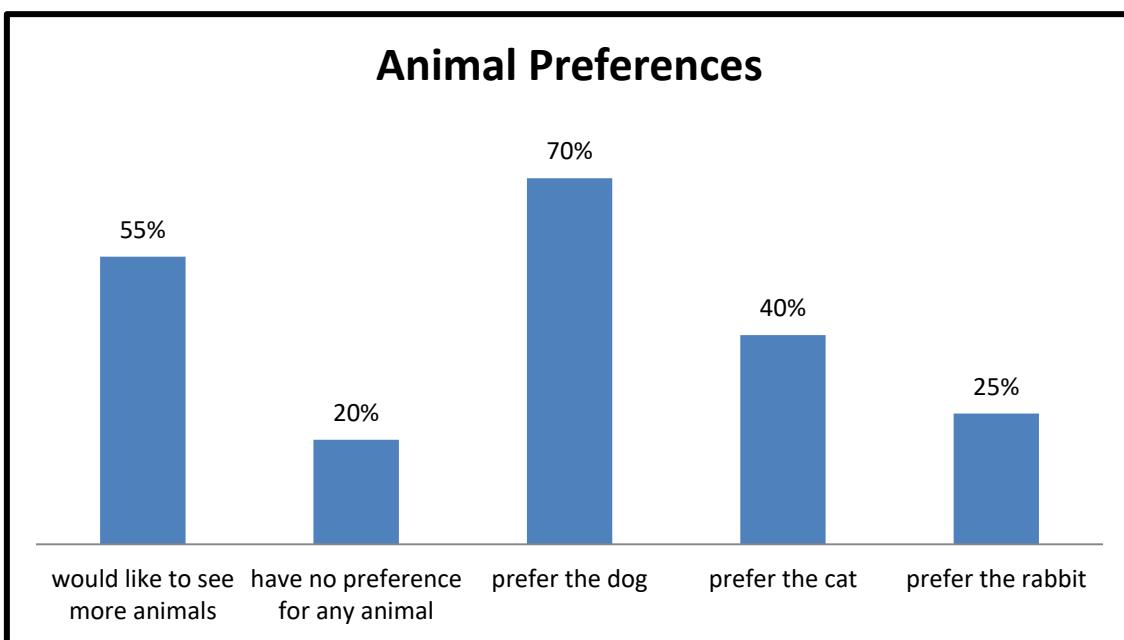

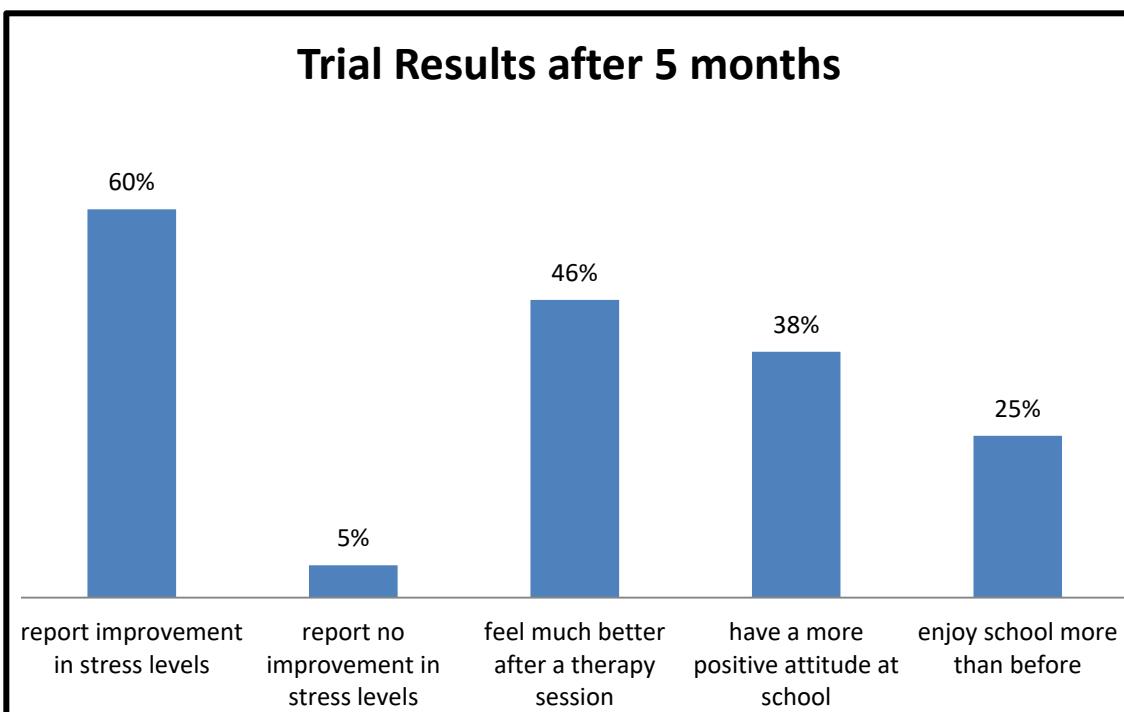

For those who are not used to interacting with pets of any kind, there will be an animal trainer on hand at all times to help with the animals. The trainer will also teach the students what to do and how to act with the animals.

## THE TRIAL SO FAR...

In the five months the trial has been operating, the response has been positive, with teachers and students booking sessions. Teachers have reported that students' behaviour and attitude have been improving. Students who have participated in the sessions have also reported that they felt calmer in the classroom. Their results have shown improvement too!

## Part 2

You have to give a presentation about a common stationery item. Your teacher has prepared an extract from an encyclopaedia for you to read.

Read the encyclopaedia extract and answer the questions.

# From Erasers To Correction Tape

*When you write and make mistakes, how do you correct them?*

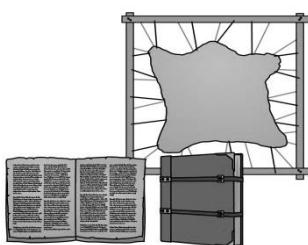

## ERASERS

Erasers were made to remove pencil marks from paper. They are also called rubbers in some parts of the world because they can be made from rubber. There are many different kinds of erasers. Some are used to remove chalk from a chalkboard and whiteboard marker from a whiteboard.

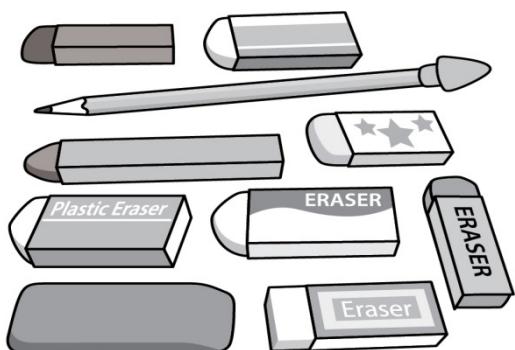

In the past, before erasers, tablets of wax were used to remove marks from paper.

Rough stone, like sandstone and pumice, was used to erase ink from documents.

Stone was used to remove marks made on parchment, a paper-like material made from animal skin. Even bread was once used as an eraser in Japan.

There are lots of types of erasers. There are the free standing or block erasers. There are also caps that fit over the end of a pencil.

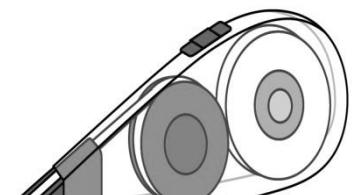

## CORRECTION FLUID & TAPE

Correction fluid or tape is usually white. It is used to cover mistakes written or typed on paper. Correction fluid was invented by a secretary in 1951. This invention made the lives of secretaries and writers easier.

Originally correction fluid came in liquid form with a brush. It was painted on the mistake and left to dry. Once dry, it could be written on. One disadvantage was that the fluid in the bottle dried out quickly. A liquid called thinner had to be used to thin the correction fluid but it was dangerous and affected the environment. A side effect was some people sniffed the thinner, badly affecting their health.

Correction tape was invented in 1989 by a Japanese company and is now used all over the world to correct mistakes. Kids doing exams would be lost without their correction tape!

Correction tape comes in dispensers that roll the tape directly onto the paper. This is called a correction mouse. There are different types of mice, different colours and kinds of tape.

Sadly, word processing has seen a drop in the need for such products.

## SKFGLR SECONDARY SCHOOL 50<sup>TH</sup> ANNIVERSARY CELEBRATIONS

3<sup>rd</sup> September, 2021

SKFGLR Secondary School is celebrating its 50<sup>th</sup> Anniversary in 2022. Principal May Chan has been the Principal for the last four years, taking over from Dr. John Chau in 2017. Under her leadership, the school has grown. The school campus has been expanded. There is now a new wing with extra classrooms, an all-purpose room as well as a new library. In 1973, the student population was around 650 and it has since grown to close to 1800 students this year.

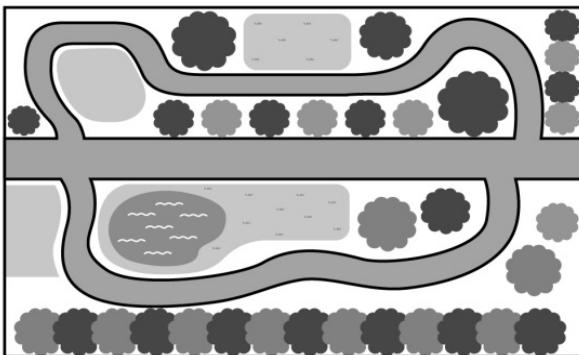

Many activities have been planned to celebrate the 50<sup>th</sup> Anniversary. School-based activities will be held during the year, but most of the activities will take place in June, 2022.

### SCHOOL-BASED ACTIVITIES

#### COMMEMORATIVE GARDEN

One activity taking place during the year is the building of a special commemorative garden. Students will help build the garden and plant the trees and bushes. It is hoped that the project, which starts in late September, will be finished by the end of the school year. Leading the school gardening team will be a former student, and now famous gardening expert, Ms. Vera Wong. Ms. Wong attended the school from 1973 until she graduated in 1979. The dedication of the garden will be held at the beginning of the new school year in 2023.

## 50<sup>TH</sup> ANNIVERSARY CELEBRATIONS

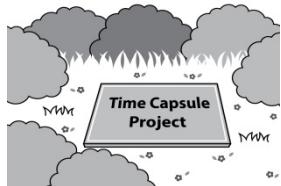

3<sup>rd</sup> September, 2021

### SCHOOL ANNIVERSARY BOOK

Another year-long project is the School Anniversary Book. The school NET, Mrs. Maggie Jones, will put together a special history of the school. The English Society and School Magazine Team will help. Each student will receive a copy at the end of the school year.

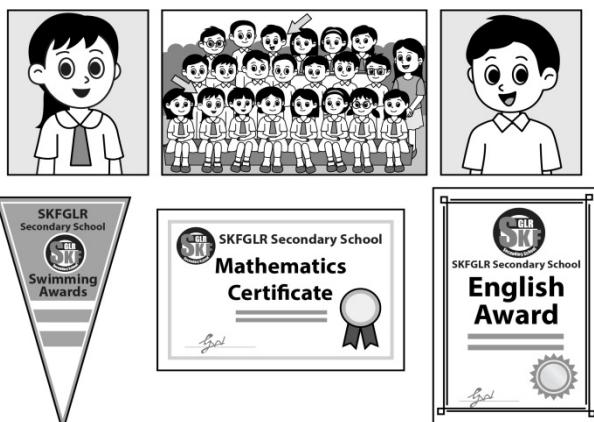

### TIME CAPSULE PROJECT

Mrs. Jones and her teams will also collect information and materials for a Time Capsule Project. The time capsule will be placed into the new garden under a special commemorative plaque. It will be kept there for another 50 years and will be opened at a special Time Capsule Opening Ceremony which will hopefully take place at the school's 100<sup>th</sup> Anniversary Celebrations.

Mrs. Jones has asked the alumni to donate pictures and memorabilia of their days at school to the Time Capsule Project. Materials will be divided up into school information, class information, clubs and societies, special events and subject information. Anyone who has something to contribute can contact Mrs. Jones at the school.

Check out the school website and calendar at [www.skfglrsecschool.edu.hk](http://www.skfglrsecschool.edu.hk) for further information on any of the anniversary activities.
